# EXPERIMENT 5

## Aim

To create a multi-page personal portfolio web application using React and React Router, featuring Home, About, and Contact pages, initialized and served using the Vite build tool.

## Description

This project is a lightweight, multi-page personal portfolio built with React, Vite, and React Router. It functions as a Single Page Application (SPA), allowing users to navigate seamlessly between Home, About, and Contact sections without reloading the browser. The application features a modular component structure and a clean, responsive design styled with custom CSS.Here are the specific techniques implemented**.**

## Commands Used:

**npm create vite@latest my-react-app**

- Use: Initializes a new React project using Vite. It creates a folder named my-react-app and sets up the basic files, folders, and configurations needed for a modern React application.

**npm install react-router-dom**

- Use: Installs the React Router library for web applications. This provides the tools (like BrowserRouter, Routes, Route, and NavLink) needed to create multiple pages and navigate between them without reloading the browser**.**

**npm run dev**

- Use: Starts Vite's local development server. This allows you to view your application in the browser (usually at http://localhost:5173/ or 5174) and automatically updates the page whenever you save changes to your code.

## Code:

**src/Home.jsx**

```
function Home() {
  return (
    <div className="page">
      <h1>Hi, I'm Sai Harshith</h1>
      <h2>CBIT AI & ML Student</h2>
      <p>
        I am a passionate Artificial Intelligence and Machine Learning student
```

```
      interested in technology, programming, and building useful projects.
    </p>
   </div>
  );
}
export default Home;
```

**src/About.jsx**

```
function About() {
  return (
   <div className="page">
    <h1>About Me</h1>
    <p>
     Hi, I'm Sai Harshith, an AI and Machine Learning student at CBIT.
    </p>
    <p>
     I am interested in Artificial Intelligence, Machine Learning,
     Web Development, and Software Development.
    </p>
    <p>
     I enjoy learning new technologies, developing projects, and improving
     my programming skills.
    </p>
   </div>
  );
}
export default About;
```

**src/Contact.jsx**

```
function Contact() {
  return (
    <div className="page">
      <h1>Contact Me</h1>
      <p>Email: saiharshith8186@gmail.com</p>
      <p>Phone: 987645321</p>
      <p>
        Feel free to contact me for any questions, projects, or opportunities.
      </p>
    </div>
  );
}
export default Contact;
```

**src/App.jsx**

```
import { BrowserRouter, Routes, Route, NavLink } from "react-router-dom";
import "./App.css";
import Home from "./Home";
import About from "./About";
import Contact from "./Contact";

function App() {
  return (
    <BrowserRouter>
      <div className="App">
        <nav>
          <div className="logo">Sai Harshith</div>
          <NavLink to="/">Home</NavLink>
          <NavLink to="/about">About</NavLink>
```

```
        <NavLink to="/contact">Contact</NavLink>
      </nav>

      <Routes>
        <Route path="/" element={<Home />} />
        <Route path="/about" element={<About />} />
        <Route path="/contact" element={<Contact />} />
      </Routes>
    </div>
  </BrowserRouter>
 );
}
export default App;
```

**index.html**

```
<!doctype html>
<html lang="en">
 <head>
  <meta charset="UTF-8" />
  <link rel="icon" type="image/svg+xml" href="/favicon.svg" />
  <meta name="viewport" content="width=device-width, initial-scale=1.0" />
  <title>My Profile</title>
 </head>
 <body>
  <div id="root"></div>
  <script type="module" src="/src/main.jsx"></script>
 </body>
</html>
```

**index.css**

```
* {
  margin: 0;
  padding: 0;
  box-sizing: border-box;
}
body {
  font-family: Arial, sans-serif;
  background-color: #f4f6f8;
  color: #333;
}
nav {
  background-color: #222;
  padding: 18px;
  text-align: right;
}
nav a {
  color: white;
  text-decoration: none;
  margin: 0 20px;
  font-size: 18px;
}
nav a:hover {
  color: #61dafb;
}
.logo {
  float: left;
  color: white;
  font-size: 14px;
```

```
  font-weight: bold;
  margin-left: 20px;
}
.page {
  width: 80%;
  max-width: 800px;
  margin: 60px auto;
  padding: 40px;
  background-color: white;
  border-radius: 10px;
  text-align: center;
  box-shadow: 0 4px 12px rgba(0, 0, 0, 0.1);
}
.page h1 {
  margin-bottom: 15px;
  color: #222;
}

.page h2 {
  margin-bottom: 20px;
  color: #555;
}
.page p {
  margin-bottom: 15px;
  line-height: 1.6;
  font-size: 17px;
}
```
